TAA COMPLIANT

Organization

Floor-standing rack enclosures
- 42U to 51U lockable enclosures with up to 3,000 lb. weight capacities.

Mounts and carts
- Slat wall system with options for single- and dual-extension monitor mounts optimizes valuable desk space.
- Monitor risers and desk clamps with storage provide optimal viewing and workspace.
- Mobile workstations with adjustable shelves bring equipment to offices and classrooms.

Protection

Single- and 3-phase UPS systems
- Reliable battery backup and protection against abnormal voltages and line noise.
- Standby, line-interactive and double-conversion topologies.
- Options for extended runtime capabilities and remote management.

Surge protectors
- Robust protection from surges, spikes and line noise with options for USB charging and phone line protection.

Isolation transformers
- Line isolation, noise filtering and surge protection for sensitive equipment.
- Medical-grade (UL 60601-1) models are available with up to 1800 watts of capacity.

Management

Rackmount PDUs
- Single- or 3-phase models in horizontal and vertical formats.
- Options include LX interface and automatic transfer switch (ATS).

Power management
- Network cards add remote capability to select UPS systems and PDUs.
- Environmental sensors monitor temperature, humidity and contact closure status.

KVM switches
- Desktop or 1U rackmount form factor with options for built-in LCD console, IP remote access and multiuser capability.
- Secure desktop KVM switches with NIAP (National Information Assurance Partnership) certification.

IP console servers
- In-band and out-of-band remote access to serial- and network-connected devices with up to 48 RJ45 ports.

Powering Business Worldwide

TAA-compliant solutions

Eaton offers a complete line of power and connectivity solutions certified to comply with the Federal Trade Agreements Act (TAA) for easy addition to GSA Schedules and other business contracts. TAA-compliant products are also ideal for any business or organization seeking IT solutions made in the USA and other free-trade-friendly countries.

Save time

- Complete solutions from a single source means less time spent on buying and implementation.
- Dedicated sales and support team ensures clear guidance on solutions and compliance.

Save money

- Avoid penalties by staying compliant with GSA Schedule contracts.
- Clean power extends sensitive equipment lifespan for longer use and less frequent replacement.

Reduce risk

- Vital services and information remain powered and accessible.
- Protect personnel, data and systems with secure technology.

Customers agree: Eaton's quality and value are second to none!

I would definitely recommend this product

"Secure KVM switch was a good value for the money. It has worked as intended with no problems thus far."

Paul Paul Paul
Verified Buyer

Another quality product

"I have utilized their products for over 20 years. From racks to PDUs to UPS systems and accessories, they never disappoint in number of options, quality, functionality and customer service."

IS Director
Green Bay, WI

Affordable and reliable

"Since its deployment, this UPS has been nothing but reliable when we needed it. We've had two power outages and because of the UPS, I had time to take care of critical systems."
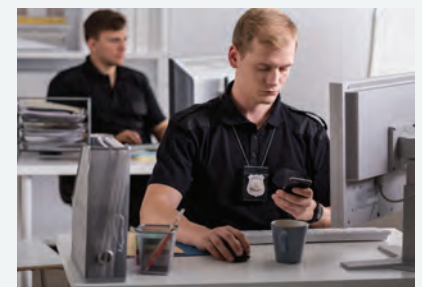

Thomas_the_Tech
Little Rock, AR
