CASE STUDY

**BELDING  
ELEMENTARY  
SCHOOL**

## Belding Elementary Trusts Tripp Lite's Charging Carts to Protect Essential Technology

“This is an extremely well-made cart, and the slots for technology and cord management are just right for iPads and Chromebooks.”

*Heather Yutzy  
Principal, Belding Elementary School  
Chicago, IL*

## Customer

Belding Elementary School serves 600 students enrolled in preschool through eighth grade on Chicago's northwest side. Belding serves as a model of the vibrant neighborhood school, preparing a diverse student body that speaks more than 25 languages for a path toward college and careers. The school's vision for its young scholars is to develop "joyful, inquisitive learners who care for and contribute to our community and world."

“The Tripp Lite Charging Cart is a fantastic resource for our school!”

Heather Yutzy

## Challenge

The school's goals include providing an environment for a superior and well-rounded education. Test scores at Belding are among the highest in Chicago and continue to improve each year, thanks to a curriculum that emphasizes Common Core standards, including extensive experience using technology and online resources. The school deploys iPads and Chromebooks to help students hone their digital skills. Because of the school's large student body, the devices must be moved between classrooms, be charged efficiently for the next school day's lessons and be kept organized and secure when not in use.

### The Tripp Lite Solution

#### CSC36AC 36-Device AC Charging Station Cart

This award-winning Chromebook Charging Cart was designed by teachers, for teachers.

- Color-coded shelves with removable dividers hold and organize devices up to 15 inches
- High-speed zone charging prevents overloads
- Key-locking front and back doors deter theft and tampering
- Cable management eliminates interior clutter
- Convenient mobility enables smooth transport between classrooms
- Solid laminate wood-grain top provides a convenient writing surface

## Results

Belding Principal Heather Yutzy selected Tripp Lite's CSC36AC 36-Device Charging Station Cart based on factors that included quality, cost, easy mobility and the management and organization the cart provides for multiple devices. "This is an extremely well-made cart, and the slots for technology and cord management are just right for iPads and Chromebooks."

Teachers at Belding use the cart to simplify sharing of devices among students. "The mobility of this cart lets us easily move it from classroom to classroom," said Principal Yutzy. "Plus, the cord management system and numbering system help us keep a large number of devices organized. The Tripp Lite Charging Cart is a fantastic resource for our school!"
