Subject: Trade Agreements Act ("TAA") Compliance Position

Dear Valued Customer:

Eaton is a power management company with a comprehensive understanding of government contracting requirements and obligations. As an experienced Government contractor, Eaton prides itself on ethical conduct and doing the right thing for its customers and suppliers. To that end, Eaton has implemented a robust Government compliance program focused on ensuring Eaton's compliance with all applicable Government procurement laws and regulations.

In today's challenging and competitive global sourcing environment, Eaton appreciates the need to support our national security interests by sourcing domestically and manufacturing its products in the United States and/or designated countries. In support of these goals, Eaton is partnering with domestic and qualified/designated sources of supply throughout the world. Eaton is proud to offer a broad variety of power management products that meet government domestic preference requirements, including TAA. With respect to the WEBCARDLX product, Eaton confirms that it meets all TAA compliance standards.

Thank you for trusting Eaton with your contracting needs and we look forward to partnering with you on this opportunity and future projects. Should you have any questions, do not hesitate to contact the undersigned.

Sincerely,

Eric K. Cobb
