

Firmware Upgrade Instructions

USB Charging Stations and Rackmount USB Chargers

System Requirement:

Windows PC

Install the upgrade application:

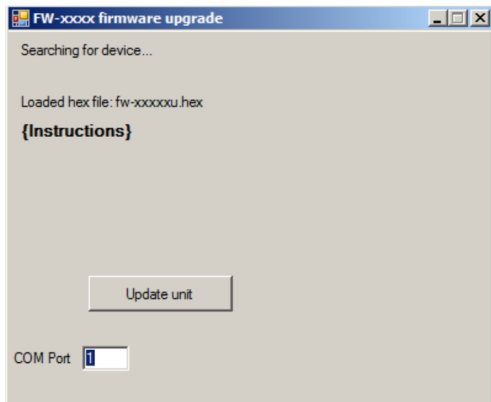

1. Run the “fw-300708_fwupgrade.exe” file. This installs the program that can update the unit.
2. The newly installed program can be found either from the desktop icon created or from the start menu⇒Programs⇒Tripp Lite⇒fw-300708_fwupgrade.
3. Once the application is installed, run the upgrade application.

Run the upgrade application:

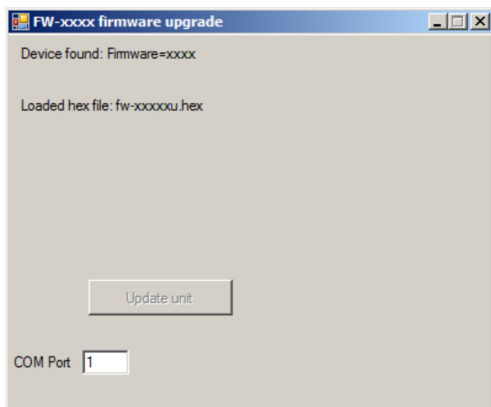

1. Run “fw-300708_fwupgrade” from the desktop icon:

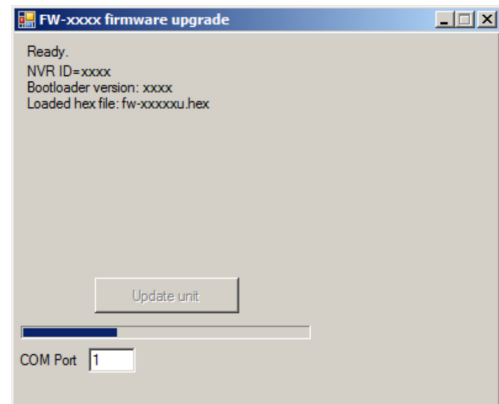

2. The following screen will display:

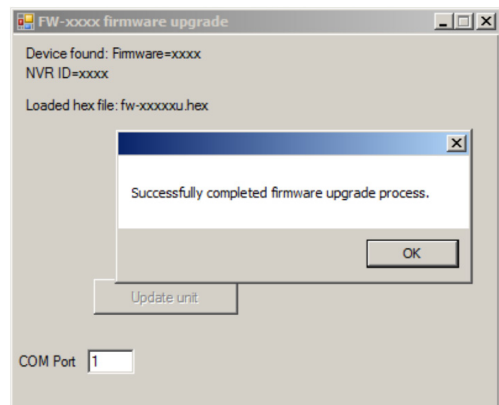

3. Connect the USB cable to the unit being upgraded, then plug the unit into AC power. The following screen will display:

4. Click the “Update” button to begin the upgrade process. After several seconds, an update progress bar will appear:

5. Several seconds later, the following screen will appear to indicate a successful upgrade. Click OK.

6. To upgrade the next unit, refer back to step #2 of the **Run the upgrade application** section and proceed from there.
