NEW PRODUCT ANNOUNCEMENT

Mobile Workstations

Rolling Workstations Feature Height Adjustment for Optimal Comfort

Model: WWSSRDSTC

Shelves accommodate a monitor, keyboard, CPU and printer to create an all-in-one mobile desk.

Tripp Lite's new workstations combine the freedom of mobility with the convenience of height adjustment. The workstations roll easily from room to room on swivel casters and are perfect for applications where a stationary desk is not practical.

The height of each workstation is adjustable, allowing users to view monitors and access keyboards at a comfortable level. The height adjustment also supports the use of the workstations as standing desks.

Key Benefits

EASY MOBILITY

- Swivel casters provide smooth rolling from room to room. Locking feature keeps the workstations in position while at rest.
- Workstations can be rolled into a secure storage area to deter theft of equipment.

CONVENIENT ADJUSTABILITY

- Workstation shelves can be raised or lowered for improved ergonomics and optimal viewing of a monitor or laptop.
- WWSSRDSTC has one-touch lever control for smooth transitions between sitting and standing.
- DMCS1732S has a VESA-compliant display mount with tilt and rotation capabilities.

SPACE SAVINGS

- Compact footprint allows workstations to fit in spaces too small for most computer desks.

ORGANIZATION FOR PERIPHERALS

- Shelves provide places for a monitor, laptop, keyboard, printer or CPU.
- WWSSRDSTC and DMCS1732S have an adjustable-width CPU holder to accommodate a variety of form factors; the DMCS1732S holder also offers height adjustment. Straps are included to secure a CPU or other component.

SUPPORT FOR ACCESSORIES

- Workstations support Tripp Lite clamp-mount accessories, including display mounts, surge protectors, thin-client mounts and AC/USB charging clips (compatibility varies by model).

Perfect for:

Homes, schools, offices, warehouses and medical facilities.

Feature Focus

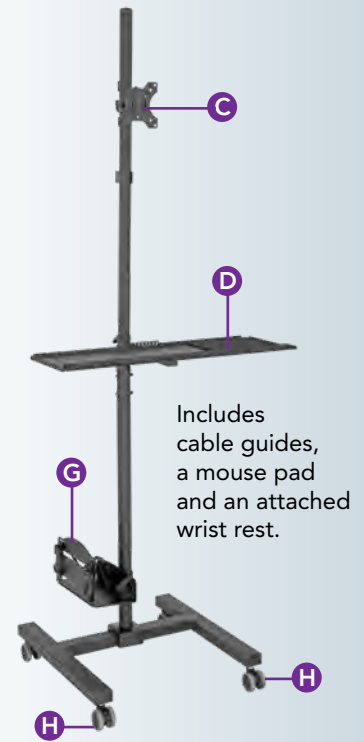

Includes a cord wrap.

Model: WWSSRDSTC

Model: WWSSRC

Includes cable guides, a mouse pad and an attached wrist rest.

Model: DMCS1732S

- A** Top Shelf
- B** Lever for One-Touch Height Adjustment
