

Sanitize devices while you store them

UVC locking storage carts make storing and sanitizing high-touch electronics convenient.

Perfect for:

Storing and sanitizing tablets, laptops and other electronic devices.

Help promote a safer space for working and learning while also securely storing valuable equipment. New Safe-IT UVC locking storage carts use ultraviolet lights to reduce the presence of germs on devices. A cart with two shelves and a cart with three shelves are available. Both models automatically end their sanitizing cycles after 10 minutes for safe sanitizing without the use of heat, liquids or chemicals.

The easy-to-read LED indicators on these carts tell you when devices are ready to be sanitized and when a cycle is finished, eliminating any guesswork. With locking front and rear doors, these conveniently mobile carts deter theft of stored devices while also helping to protect the health of those who handle them.

Key benefits

CHEMICAL-FREE DEVICE SANITIZATION

- Timer-controlled UVC germicidal lights inside the carts sanitize devices in 10 minutes.
- An exterior LED indicates when the doors are closed and the UVC lights can be activated.
- If a door is opened during the timer cycle, the UVC lights shut off automatically for safety.

Note: Avoid skin and eye exposure to UVC light.

SECURE STORAGE

- Locking front and rear doors deter theft of stored devices.
- Carts can be easily rolled to a secure room.

EASY MOBILITY

- Swivel casters with large, non-marking wheels improve handling over uneven surfaces. The casters lock to help prevent unwanted movement.
- Wide-grip handle assists with cart control.
- Input cord wrap keeps the 10 ft. power cord out of the way when not in use.

ENHANCED WORKSTATION FEATURE

- Wood-grain laminate worktop functions as a writing surface or a sturdy platform for AV equipment (CSCSTORAGE1UVC only).

Feature focus

A Wide-Grip Handle

Reversible, wide-grip handle makes cart control smoother and safer.

B UV Sanitizing

Two compartments have UVC lighting mounted at their tops.

C Secure Storage

Key-locking front and rear doors with padlock hasps deter theft.*

D Laminated Top

Solid wood-grain laminate top provides a smooth work surface.
(CSCSTORAGE1UVC model only)

E Corner Safety Bumpers

Six corner safety bumpers protect walls and doorways from scratches. (CSCSTORAGE1UVC model only)

F Status and Start Button

LEDs indicate when doors are closed and when UVC lights are on. The start button activates the UVC lights.

G Power Cord Management

Two input cord wraps neatly store the power cord when not in use.

H Locking Swivel Casters

Rolling casters add mobility.

Safety Timer

Built-in timer controls UVC lights, limiting sanitation cycles to 10 minutes and automatically shutting them off if doors are opened.**

*Keys are included, padlock is user-provided. ** It is up to the customer to determine if their equipment can be exposed to the 10-minute cycle of UVC light.
