

SMARTONLINE® UNITY PF UPS — QUICK CROSS-REFERENCE

You buy a UPS to avoid problems, so it's maddening when it actually causes headaches, backaches and even downtime. Finally, there's an intelligent, networked UPS that lightens your workload while protecting critical equipment from unexpected power loss:

- Smart batteries provide accurate runtime data throughout their lifespan
- Batteries also record first-use date for proactive battery replacement alerts that prevent battery failure downtime
- Self-aligning blind-mate connections for batteries and bypass PDUs enable lighter, easier single-person installation and maintenance without downtime or need for electrician assistance
- Controllable outlet banks with programmable auto-probe feature provides remote automated load control for self-healing device reboots and runtime prioritization during outages

5kVA On-Line UPS Competitive Cross-Reference

When Considering This UPS Model	Compare to This Unity PF Upgrade	Tripp Lite SmartOnline Unity PF Series Advantages and Additional Notes — All Unity PF models feature unity (1.0) power factor, pure sine wave output, ENERGY STAR® 2.0, SNMP card, easy-access management console, temperature-compensated charging and front-panel LCD.
APC®		
SRT5KRMXL	SU5KRT3UHV	Adds 200W. Longer runtime. Adds remote outlet control. (Model with bypass: SU5KRT3UHVMB.)
SRT5KRMXL-5KTF	SU5KRT3UTF	Adds 200W. Longer runtime. Adds remote outlet control. (Model with bypass: SU5KRT3UTFMB.)
SRT5KRMXL-TUS	SU5KRT3UHV	Adds 200W. Longer runtime. Adds remote outlet control. (Model with bypass: SU5KRT3UHVMB.)
SRT5KRMXL-IEC	SU5KRT3UG	Adds 200W. Longer runtime. Adds remote outlet control. Also order SU30ACORD to match competitor configuration. (Model with bypass: SU5KRT3UGMB.)
SRT5KXLT	SU5KRT3UHV	Adds 200W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU5KRT3UHVMB.)
SRT5KXLT-5KTF	SU5KRT3UTF	Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU5KRT3UTFMB.)
SRT5KXLT-TUS	SU5KRT3UHV	Adds 200W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU5KRT3UHVMB.)
SRT5KXLT-IEC	SU5KRT3UG	Adds 200W. Longer runtime. Adds remote outlet control. Also order SU30ACORD and 2-9USTAND to match competitor configuration. (Model with bypass: SU5KRT3UGMB.)
SRT5KRMXLW-HW	SU5KRT3UHW	Adds 500W. Longer runtime. (Model with bypass: SU5KRT3UHWMB.)
SRT5KXLI	SU5KRT3UX	Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND to match competitor configuration.
Eaton®		
9PX5K	SU5KRT3UHV	Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU5KRT3UHVMB.)
9PX5KTF5	SU5KRT3UTF	1U smaller. Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU5KRT3UTFMB.)
9PX5KP1	SU5KRT3UTFMB	1U smaller. Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications.
9PX5KP2	SU5KRT3UTFMB	1U smaller. Adds 500W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications.
CyberPower®		
OL5KRTHD	SU5KRT3UHV	Much longer runtime. More remote outlet control banks.
Upgrades from Existing Tripp Lite Models		
SU5000RT4UHV	SU5KRT3UHV	1U smaller. Adds 500W. Longer runtime. Includes network card. Adds remote outlet control. (Model with bypass: SU5KRT3UHVMB.)
SU5000RT4UTF	SU5KRT3UTF	1U smaller. Adds 500W. Longer runtime. Includes network card. Adds remote outlet control. (Model with bypass: SU5KRT3UTFMB.)

Powering and Connecting Your World

See Next Page for 6kVA Models

SMARTONLINE® UNITY PF UPS — QUICK CROSS-REFERENCE

- Add one or more smart external battery packs for extended runtime ([BP192V12RT3US](#) – 3U Rack BP)
- 4-post rack-mounting hardware included; 2-post rack-mounting hardware available*
- Add [2-9USTAND](#) for tower
- Add [SU30ACORD](#) to convert hardwire-only input to L6-30P

* Order [2POSTRMKITWM](#) for 3U models without "MB" suffix. Order [2POSTRMKITMB](#) for 3U models with "MB" suffix. Add an extra [2POSTRMKITWM](#) for all 5U models.

6kVA On-Line UPS Competitive Cross-Reference

When Considering This UPS Model	Compare to This Unity PF Upgrade	Tripp Lite SmartOnline Unity PF Series Advantages and Additional Notes — All Unity PF models feature unity (1.0) power factor, pure sine wave output, ENERGY STAR® 2.0, SNMP card, easy-access management console, temperature-compensated charging and front-panel LCD.
APC®		
SRT6KRMXLT-IEC	SU6KRT3UG	1U smaller. Longer runtime. Adds remote outlet control. (Model with bypass: SU6KRT3UGMB .)
SRT6KRMXLT-5KTF	SU6KRT3UTF	1U smaller. Longer runtime. Adds remote outlet control. (Model with bypass: SU6KRT3UTFMB .)
SRT6KXLT	SU6KRT3UHV	Longer runtime. Adds remote outlet control. Also order 2-9USTAND to match competitor configuration. (Model with bypass: SU6KRT3UHVMB .)
SRT6KXLTUS	SU6KRT3UHV	Longer runtime. Adds remote outlet control. Also order 2-9USTAND to match competitor configuration. (Model with bypass: SU6KRT3UHVMB .)
SRT6KXLT-IEC	SU6KRT3UG	Longer runtime. Adds remote outlet control. Also order SU30ACORD and 2-9USTAND to match competitor configuration. (Model with bypass: SU6KRT3UGMB .)
SRT6KXLT-5KTF	SU6KRT3UTF	Longer runtime. Adds remote outlet control. Also order 2-9USTAND to match competitor configuration. (Model with bypass: SU6KRT3UTFMB .)
SRT6KRMXLI	SU6KRT3UX	1U smaller. Longer runtime. Adds remote outlet control. (Model with bypass: SU6KRT3UXMB .)
SRT6KXLI	SU6KRT3UX	Longer runtime. Adds remote outlet control. Also order 2-9USTAND to match competitor configuration. (Model with bypass: SU6KRT3UXMB .)
Eaton®		
9PX6K	SU6KRT3UHV	Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU6KRT3UHVMB .)
9PX6KUS	SU6KRT3UHV	Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU6KRT3UHVMB .)
9PX6K-10	SU6KRT3UHV	Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU6KRT3UHVMB .)
9PX6KTF5	SU6KRT3UTF	1U smaller. Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications. (Model with bypass: SU6KRT3UTFMB .)
9PX6KP1	SU6KRT3UTFMB	1U smaller. Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications.
9PX6KP2	SU6KRT3UTFMB	1U smaller. Adds 600W. Longer runtime. Adds remote outlet control. Also order 2-9USTAND for tower applications.
CyberPower®		
OL6KRTHD	SU6KRT3UHV	Much longer runtime. More remote outlet control banks.
Upgrades from Existing Tripp Lite Models		
SU600RT4UHV	SU6KRT3UHVMB	1U smaller. Adds 600W. Longer runtime. Includes network card. Adds remote outlet control. (Model without bypass: SU6KRT3UHV .)
SU600RT4UTF	SU6KRT3UTFMB	1U smaller. Adds 600W. Longer runtime. Includes network card. Adds remote outlet control. (Model without bypass: SU6KRT3UTF .)
SU600RT4UHVVG	SU6KRT3UGMB	1U smaller. Adds 600W. Longer runtime. Includes network card. Adds remote outlet control. (Model without bypass: SU6KRT3UG .)
SU600RT4UHVHW	SU6KRT3UHVMB	1U smaller. Adds 600W. Longer runtime. Includes network card. (Model without bypass: SU6KRT3UHV .)
