

TAA-Compliant IT Solutions for Government Procurement

Tripp Lite offers a complete line of power and connectivity solutions certified to comply with the Federal Trade Agreements Act (TAA) for easy addition to GSA Schedules and other government contracts. TAA-compliant products are also ideal for any business or organization seeking IT solutions made in the USA and other free-trade-friendly countries.

Single-Phase UPS Systems

Provide reliable battery backup and strong protection against abnormal voltages, surges and line noise.

- Desktop, rack and tower form factors
- Standby models: 300VA to 750VA
- SmartPro® line-interactive models: 500VA to 5000VA with AVR (automatic voltage regulation)
- SmartOnline® on-line models: 1.5kVA to 20kVA with double-conversion operation
- Models with network card or network card option for remote management
- Models with extended runtime capability
- Free downloadable PowerAlert® software preserves data during extended power failures

Power Distribution Units (PDUs)

Reliably distribute power to rack-mount IT equipment.

- Single-phase and 3-phase models in horizontal and vertical form factors
- Metered, monitored, switched and ATS (automatic transfer switch) models
- Models with LX Platform network interface and touchscreen LCD
- Plug-lock insert accessories help prevent accidental disconnection of equipment

PDUS!**

Power Management Accessories

- Network cards add remote capability to select UPS systems and PDUs
- Environmental sensors monitor temperature, humidity and contact closure status

UPS External Battery Packs

- Provide additional runtime for select UPS systems
- Daisy-chain capability enables even longer runtimes

KVM Switches and Rack Consoles

Control multiple computers from a single console (keyboard, mouse and monitor).

- Rack-mount consoles with 19" LCD (no switch)
- Desktop and rack-mount switches (with or without LCD console)
- Up to 32 KVM ports in 1U of rack space
- Cat5, IP remote access and multiuser options
- Multi-platform compatibility—no software required
- NIAP-certified switches to meet Common Criteria EAL2+ security requirements
- Full line of server interface units and other accessories to fit every application

NIAP-CERTIFIED KVMs AVAILABLE!

Cables, Connectivity and USB Charging

200+ TAA-COMPLIANT PRODUCTS!

Audio/Video and Digital Signage Solutions

- Extenders, splitters and MST hubs
- HDBaseT and A/V over IP solutions
- HDMI, DisplayPort, DVI, VGA and component video solutions

Network Patch Panels, Cables and Accessories

- Cat5e, Cat6 and Cat6a patch panels, up to 48 ports
- Cat6 and Cat6a couplers; Cat5e connectors
- Keystone wall plates; keystone jacks in a variety of colors
- Bulk Cat5e and Cat6 cable with solid or stranded core

Other Connectivity Solutions

- USB over Cat5 hubs and extender kits
- Keyspan® USB to serial adapter
- External SAS cables and T1 shielded RJ48C cables
- Raceway and raceway accessories

USB Charging

- AC/USB charging clip for display mounts
- 16-port USB charging station with syncing

IP Console Servers

Provide in-band and out-of-band remote access to serial- and network-connected devices.

- Up to 48 RJ45 serial ports with standard Cisco pinouts
- Models with built-in modems, some with a 4G LTE cellular gateway
- Secure tunneling for 1000+ devices per IP and up to 50 concurrent users

NEW 4G CELLULAR MODELS!

Other TAA-Compliant Solutions

Isolation Transformers

Provide line isolation, noise filtering and surge protection for sensitive equipment. Medical-grade (UL 60601-1) models are available with up to 1800 watts of capacity.

DC Power Supplies

Efficiently convert AC power to precise 13.8V DC (+/-0.5V) to power sensitive equipment.

Surge Protectors

Provide robust surge protection with options for tel/modem or Ethernet line protection.

Monitor Risers

Raise a flat-panel monitor above desk level to help ease eye and neck strain.
