

PS/2 Server Interface Module for NetDirector Matrix KVM Switches

MODEL NUMBER: **B054-001-PS2**

Description

Tripp Lite's PS/2 Server Interface Module connects to the PS/2 ports on a Server, and converts them to a single RJ45 connector. Ordinary Cat5e patch cables can then be used to connect the server to the switch ports on the Tripp Lite B060 and B064-Series NetDirector Matrix KVM switch. Use of Cat5e cables frees up space in the server cabinet that would be filled by traditional, thicker KVM cables.

Features

- Eliminates the need for thicker, heavier KVM cables
- Compact, lightweight design
- Plug and Play; no software required
- No power supply required
- Allows a Server/CPU to be located up to 500ft away from the KVM switch
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Specifications

OVERVIEW	
UPC Code	037332122957
Accessory Type	Server Interface Unit
Accessory Class	KVM Switch Accessories
PHYSICAL	
Shipping Dimensions (hwd / in.)	5.00 x 4.75 x 1.50
