2-Port HDMI Splitter - UHD 4K, International AC Adapter

MODEL NUMBER: B118-002-UHDINT

HDMI 4K splitter transmits 4K video and audio from one HDMI source to 2 HDMI displays at the same time.

Features

4K HDMI Splitter Transmits 4K Video + Audio to 2 HDMI Displays at the Same Time
Recommended for home theaters or short-distance digital signage applications in classrooms, offices, restaurants, bars, hotels and trade shows, this Ultra High Definition (UHD) HDMI splitter is quick and easy to install. It connects to an HDMI source device, such as a laptop or Blu-ray player, and transmits a 4K audio/video signal to two HDMI monitors, projectors or televisions simultaneously. You can also cascade up to three levels of splitters to send the same 4K signal to as many as 128 displays.

Transmits Crystal-Clear 4K Video and Multi-Channel Audio
The B118-002-UHDINT supports UHD resolutions up to 3840 x 2160 (4K x 2K) at 30 Hz with 36-bit Deep Color (12 bits per channel). Place the splitter up to 1.64 feet from an HDMI source and up to 23 feet from a connected monitor for a maximum distance of nearly 24 feet from source to display. The B118-002-UHDINT also supports DTS-HD, Dolby TrueHD, Dolby Digital Plus and LPCM 7.1-channel surround sound.

Ready to Use Right Out of the Package
The plug-and-play HDMI splitter requires no software to download and install. A built-in HDMI cable connects to the source, and two HDMI outputs connect to displays with user-supplied HDMI cables (such as Tripp Lite’s P568-Series, sold separately). The included external power supply comes with four international plug adapters that allow you to use the B118-002-UHDINT almost anywhere in the world.

Highlights

- Supports UHD resolutions up to 4K @ 30 Hz for crystal-clear video transmission
- Supports DTS-HD, Dolby TrueHD, Dolby Digital Plus and LPCM 7.1-channel surround sound
- Cascade up to 3 levels of splitters to expand the number of connected displays to 128
- Plug-and-play operation with no software required for easy, immediate installation

Applications

- Duplicate audio/video content across 2 displays in your home, classroom, retail location, conference room or trade show
- Cascade 3 levels of splitters to duplicate A/V content on as many as 128 connected displays
- Add a DVI adapter to connect to a DVI-D single-link display (for video only)

System Requirements

- Source device with HDMI output (media server, Blu-ray player, satellite/cable box)
- Display devices with HDMI input (HDTV, projector, monitor)

Package Includes

- B118-002-UHDINT 2-Port HDMI Splitter
- External power supply (Input: 100–240V, 50/60 Hz, 0.2A; 12V, 1.67A output)
