

# 8-Port HDMI Splitter - 4K 60 Hz, HDR10, Multi-Resolution Support, TAA

MODEL NUMBER: B118-008-4K

HDMI 4K splitter transmits 4K video and audio from one HDMI source to 8 HDMI displays at the same time.

#### **Features**

#### 4K HDMI Splitter Transmits 4K Video + Audio to 8 HDMI Displays at the Same Time

Recommended for home theaters or short-distance digital signage applications in classrooms, offices, restaurants, bars, hotels and trade shows, this Ultra High Definition (UHD) HDMI splitter is quick and easy to install. It connects to an HDMI source device, such as a laptop or Blu-ray player, and transmits an 4K audio/video signal to eight HDMI monitors, projectors or televisions simultaneously. Multi-resolution output allows video content to be presented at the optimal resolution for each display's capabilities.

## Transmits 4K Video with HDR10 and 4:4:4 Color

The B118-008-4K supports Ultra HD 4K resolutions up to 3840 x 2160 at 60 Hz with 36-bit Deep Color (12 bits per channel), as well as LPCM 7.1-channel surround sound. Place the splitter up to 15 feet from an HDMI source and up to 15 feet from a connected monitor for a maximum distance of nearly 30 feet from source to display. High Dynamic Range (HDR10 and Dolby Vision HDR) provides a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks that pop on your 4K display. HDCP 2.2 encryption allows you to stream 4K content with no loss in resolution. This splitter also supports uncompressed 4:4:4 chroma subsampling for top-level PC gaming or for using your HDTV as a PC monitor.

**Multi-Resolution Support Allows Mixing and Matching of Displays of Different Resolutions**Say you have a brand new 4K/60 Hz HDTV in the living room, but want to also connect your Blu-ray player or media server to the older 1080p TV in the kitchen and the 4K/30 Hz monitor in your home office. The B118-008-4K is backward compatible with 4K and 1080p resolutions via automatic switching, allowing each connected display to show video at its maximum resolution without affecting the other outputs.

#### Ready to Use Right Out of the Package

The plug-and-play HDMI splitter requires no software to download and install. User-supplied HDMI cables (such as P569-Series, sold separately) connect the splitter to both the source and displays. The included external power supply comes with four international plug adapters that allow you to use the B118-008-4K around the world. Use the included mounting hardware to install the splitter on a wall or other flat surface.
