

DisplayPort over IP Transmitter/Receiver/Extender Kit, RS-232 Serial and IR Control, 1080p 60 Hz, 328 ft. (100 m), TAA

MODEL NUMBER: B160-101-DPSI

Converts DisplayPort™ audio/video to an IP-based signal that is transmitted point-to-point to a display 328 ft. away via Cat5e/6 cable or through a dedicated Ethernet network switch.

Description

The B160-101-DPSI DisplayPort over IP Transmitter/Receiver/Extender Kit extends and distributes DisplayPort audio/video, RS-232 serial and IR (infrared) remote signals from the source to the display located up to 328.08-ft. (100 m) away, which is more than 200-ft. (60.96 m) farther than a traditional Cat5e/6 solution. By adding a chain of low-cost unmanaged network switches, such as Tripp Lite's NG5, you can continue extending the distance between source and display up to 328.08-ft. (100 m) per switch.

Create a multi-in, multi-out installation with up to 64 transmitters and 255 receivers* by including dedicated managed Ethernet network switches** with Internet Group Management Protocol (IGMP), such as Tripp Lite's NSS-G16D2. You can send the DisplayPort video source to any analog or digital display, including VGA and HDMI, allowing you to mix and match technologies and use existing monitors. The IGMP-enabled switch will let you manage all connections for centralized control over which sources show on which displays.

The B160-101-DPSI supports video resolutions up to 1920 x 1080 (1080p) at 60 Hz in a point-to-multipoint switch installation. It extends IR control signals that control a source, such as a Blu-ray[™] player, to a remote display, as well as RS-232 signals at serial baud rates up to 57600 Bps. The transmitter and receiver units mount to a wall, rack or pole using the including hardware.

Highlights

- Units connect point-to-point without a switch up to 328.08-ft. (100 m)
- Supports video resolutions up to 1920 x 1080 (1080p) @ 60 Hz
- HDMI output on transmitter for connecting local display
- Plug and play—no software or drivers required

Package Includes

- Transmitter unit
- · Receiver unit
- (2) External power supplies (Input: 100–240V, 50/60 Hz, 0.5A; Output: 5V 2A)
- Plug adapters for U.S., U.K., Europe and Australia
- IR-In cable
- IR-Out cable
- 3.5 mm to DB9 adapter cable (M/F)
- 3.5 mm to DB9 adapter cable (M/M)
- · Mounting hardware
- Owner's manual

^{*}Unmanaged switch installations are limited to two transmitter units. Number of receivers is limited to number of ports remaining on unmanaged switch.

^{**}B160-Series designed for use with dedicated network switch. Connecting to a switch used with other networking equipment will result in degraded or non-functional performance.

Features

Extends and Distributes DisplayPort A/V, Serial and IR Control Signals over Cat5e/6 Cabling

- Converts audio/video to an IP-based signal that is transmitted point-to-point to a display 328.08-ft. (100 m) away
- Add low-cost network switches between transmitter and receiver to continue extending distance up to 328.08-ft. (100 m) per switch
- · HDMI output on transmitter for connecting a local display

Create a Multi-In, Multi-Out Installation Using B160-Series Transmitters and Receivers

- Connect up to 64 transmitters and 255 receivers through multiple dedicated managed network switches
- IGMP-enabled switches allow centralized control over which sources show on which displays
- Video source can be sent to any analog or digital display, so you can mix and match technologies and use existing monitors

Enhanced Technical Features

- Supports video resolutions up to 1920 x 1080 (1080p) @ 60 Hz
- Uses H.264 video compression standard
- Transmits on 20-60 kHz IR frequency
- Extends IR control signals that control a source from a remote display
- Supports RS-232 serial baud rates up to 57600 Bps
- HDCP and 3D compatible

Plug-and-Play Functionality

- No software or drivers required
- Hardware included for mounting on wall, rack or pole

TAA-Compliant

• Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

Specifications

OVERVIEW		
UPC Code	037332196798	
Product Type	Extender Kit	
Technology	DisplayPort; IR; A/V over IP; Cat5/5e; Cat6	
VIDEO		
Max Supported Video Resolution	1920x1080 (1080p @ 60Hz)	
Max 1280 x 720 (720p) Range (ft)	328	
Max 1920 x 1080 (1080p) Range (ft)	328	
Transmitter Video Input	DisplayPort	
Transmitter - Number of Video Outputs	1	

Transmitter - Local Display Output	НОМІ	
Receiver/Transceiver Video Output	DisplayPort	
Receiver - Number of Video Outputs	1	
Signal Range (ft)	328 via Cat6 275 via Cat5e	
Signal Range (m)	100 via Cat6 84 via Cat5e	
Range Extension using other Tripp Lite product	328ft	
Recommended Cabling	N202-Series Cat6 Patch Cable	
Other Tripp Lite product used to extend range	network switch	
Max Supported Color Depth	24-bit True Color	
HDR Support	No	
3D Video Supported	Yes
