## BP240V7RT3U - Special NON-EXPANDABLE starter battery pack for SU6000RT3U and SU6000RT3UHV bundles

MODEL NUMBER: **BP240V7RT3U**

### Package Includes

- BP240V7RT3U external battery pack
- Mounting hardware
- Warranty information
- Instruction manual

### Description

BP240V7RT3U is a special NON-EXPANDABLE external battery pack that's included as part of Tripp Lite's SU6000RT3U and SU6000RT3UHV UPS bundles. BP240V7RT3U has no daisychain throughput connector to enable the connection of more than one BP240V7RT3U to a UPS. You cannot connect more than one BP240V7RT3U to a single host UPS system. If you're planning on adding additional battery packs beyond the BP240V7RT3U that was originally included with your UPS, use BP240V10RT3U instead, since it's loaded with a daisychain throughput connector that allows multiple BP240V10RT3U external battery packs to be connected to the host UPS.

Tripp Lite recommends that you buy model BP240V10RT3U as the replacement for BP240V7RT3U units that have reached end of life.

### Features

- BP240V7RT3U is a special NON-EXPANDABLE external battery pack that's included as part of Tripp Lite's SU6000RT3U and SU6000RT3UHV UPS bundles
- BP240V7RT3U has no daisychain throughput connector to enable the connection of more than one BP240V7RT3U to your UPS
- You cannot connect more than one BP240V7RT3U to a single host UPS system
- If you're planning on adding additional battery packs beyond the BP240V7RT3U included with your UPS, use BP240V10RT3U instead
- BP240V7RT3U may be purchased from a small number of international Tripp Lite specialty product resellers, but only as a replacement for the BP240V7RT3U that originally came with your SU6000RT3U or SU6000RT3UHV UPS system
- Tripp Lite recommends that you buy BP240V10RT3U instead of BP240V7RT3U, as it features greater capacity and is fitted with a daisychain connector that allows multiple external battery packs to be connected to the host UPS for superior runtime
