

Cat8 STP Shielded Tool-Free Keystone Jack, 568A/568B, TAA

MODEL NUMBER: N238-SHC8-TF-1

Allows you to terminate Cat8 cables quickly and easily in your data center or cloud computing application without using a punch-down tool.

Features

Tool-Free Cat8 Keystone Jack Designed for Simple Installation in Data Centers

Terminate your Cat8 network cables without the time, effort and expense of a punch-down tool, and wire the 110 IDC module for T568A or T568B without a crimp tool. The N238-SHC8-TF-1 is essential for future-proofing your Gigabit or 10G applications with more affordable, more flexible 25G and 40G Ethernet Cat8 premise wiring in data center, cloud computing or PoE++ applications. It is compatible with surface-mount boxes and other hardware, such as N082-012-WH (sold separately).

Supports PoE++ Applications with up to 100W of Power

Connecting PoE devices saves you the expense and effort of purchasing, connecting and installing individual power supplies for each device, such as video conferencing devices, laptops and flat screens, building management devices and more. The UL-compliant N238-SHC8-TF-1 is 4PPoE (PoE++) compatible and IEEE 802.3bt compliant for PoE applications up to 100 watts. It is also specifically designed to prevent spark-gap erosion that degrades the plug and jack contacts over time and can negatively influence data and/or power transmission capabilities.

Premium Protection from EMI/RFI and Other Noise Helps Your Equipment Perform Better

The fully shielded metal housing blocks disruptive EMI and RFI line noise that can disturb your electronics and inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

A Must-Have for Modern Data Centers

The durable zinc alloy and nickel-plated composition ensures your application is built to last. The 110 IDC module is compatible with 23–27 AWG cables and can be installed and uninstalled without tools.

TAA-Compliant for Schedule Purchases

The N238-SHC8-TF-1 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other GSA federal procurement contracts.

Specifications

Highlights

- Designed for fast, reliable terminations with no punchdown tool in PoE applications
- Supports PoE++ and highpower PoE to save expense of powering PoE devices individually
- Specially designed to prevent spark-gap erosion that can affect transmission
- Dispels EMI/RFI line noise that can destroy data and affect equipment performance
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

System Requirements

- Compatible with Cat8 snagless shielded Ethernet cabling up to 30 m (98.4 ft.)
- Intended for 25GBASE-T and 40GBASE-T data center and cloud computing applications

Package Includes

N238-SHC8-TF-1 Cat8 STP Shielded Tool-Free Keystone Jack

Unit Dimensions (hwd / in.) 0.849 x 1.498 x 0.669		
Unit Dimensions (hwd / cm) 2.167 x 1.7 x 3.806		
Unit Dimensions (hwd / mm) 21.57 x 17 x 38.06		
ENVIRONMENTAL		
Operating Temperature Range 14° to 140°F (-10° to 60°C)		
Storage Temperature Range -40° to 158°F (-40° to 70°C)		
Relative Humidity 10% to 85% RH		
COMMUNICATIONS		
Network Compatibility 25 Gbps; 40 Gbps		
IEEE Standards Supported 802.3bt		

FEATURES & SPECIFICATIONS		
Network Speed Support	10 Gbps; 25 Gbps; 40 Gbps	
DC Current Rating	1.5A	
Cable Compatibility	Cat8	
IP20 Rated	Yes	
Ethernet Support	Yes	
Recommended Category Cable	Cat8	
Tools Necessary	No	
Keystone Jacks	Yes	
STANDARDS & COMPLIANCE		
Product Compliance	CE (Europe); RoHS; Trade Agreements Act (TAA); UKCA	
WARRANTY & SUPPORT		
Product Warranty Period (Worldwide)	Lifetime limited warranty
