# End-of-Row Doors for RapidPod Aisle Containment System - Single Café, 90”H x 42”W, TAA

MODEL NUMBER: NXEORDCH9042

Block escape routes for air and eliminate air recirculation and mixing in your modular RapidPod Aisle Containment System.

## Features

### Modular Customization of Your RapidPod Aisle Containment System

These end-of-row doors (EoRD) optimize airflow management in your RapidPod® Aisle Containment System by sealing off key air escape routes, which reduces air recirculation and air mixing. This allows for higher ambient temperatures, which lowers your energy costs and extends the life of your valuable equipment.

### Designed for Convenience and Durability

These crash-through doors allow you fast and unobstructed entry and exit from aisles. The doors hold open at a 90-degree angle, making equipment handling and maintenance easily accessible. The doors are easy to install, which means very little downtime and disruption in your active data center.

### A Practical, High-Performance Solution for Aisle Containment

The fully transparent and impact-resistance windows boast a stringent UL94 V-0 rating for the utmost safety and visibility. An integrated edge grip seal at the bottom of the doors seals air gaps to maintain blockage.

### Flexible Installation Options

Also available are a ceiling-mount option with threaded rod provisions, as well as optional stainless steel crash plates to extra durability in a high-traffic environment.

### TAA-Compliant for GSA Schedule Purchases

The NXEORDCH9042 is compliant with the Federal Trade Agreements Act (TAA), which makes it eligible for GSA (General Services Administration) Schedule and other federal procurement contracts.

## Highlights

- Crash-through access provides quick, hands-free entry and exit from aisles
- Fully transparent, impact-resistance windows rated UL94 V-0 for safety and visibility
- Fast, hassle-free installation minimizes downtime and disruption in a busy data center
- Hold open at 90° for convenient equipment adjustments and maintenance access
- Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

## Package Includes

End-of-row doors, 90 x 42 in.
