

PDU Power Cords, C19 to P-Lock C20 - Heavy-Duty, 20A, 250V, 12 AWG, 4 ft. (1.2 m), Red, 6 Pack

MODEL NUMBER: P036-E04-ARD-6

Connect blade servers or network switches to a PDU with a P-Lock C19 or C39 power connector and extend your existing power connection by 4 ft.

Features

C20-to-C19 Power Cables for Network Devices That Require a Heavy-Gauge Connection

These power extension cords feature 12 AWG wire suitable for high power connections, making them a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. The P036-E04-ARD-6 can be used to connect servers, routers, network switches or blade server enclosures to a UPS system or PDU. The four-foot (1.2-meter) length helps reduce cable clutter by providing a tailor-made fit between the device and the PDU in a crowded rack enclosure. Six PDU power cables are included, an ideal pack for large-scale equipment rollouts.

Forms a Special Locking Connection with a P-Lock Outlet

The P-Lock C20 connector forms a secure connection with a PDU with a P-Lock outlet, including Eaton G4 and newer PDUs with C39 outlets. The P-Lock connection helps reduce costly downtime caused by accidental cable disconnections in a crowded rack or PDU space. The P036-E04-ARD-6 lets you replace non-locking C19/C20 cables or upgrade an entire PDU application by pairing with an Eaton PDU or other PDU with P-Lock outlets.

Red Jackets Help Avoid Misidentification That Can Cause Costly Downtime

The UL-listed cables have a red PVC jacket with fully molded red ends, which is easy to identify quickly in a crowded PDU or UPS system and helps prevent the cables from becoming accidentally disconnected.

Specifications

| OVERVIEW | | |
|----------------------|---|--|
| UPC Code | 037332292636 | |
| Product Type | PDU Power Cord | |
| Device Compatibility | Computer; Monitor/HDTV; PDU; Printer; Server; Tablet; UPS | |
| Country/Region | North America | |

Highlights

- Recommended for powering servers, routers and other highoutput network devices
- P-Lock C20 connector eliminates accidental cable disconnections in a crowded PDI I
- Thick 12 AWG wire gauge manages high power levels required for larger equipment
- Red cable jacket allows quick identification of devices in a crowded rack enclosure
- 6 PDU power cables included, ideal for large-scale equipment rollouts

Package Includes

(6) PDU Power Cords, C19 to P-Lock C20, 4 ft. (1.2 m), Red
