Features

Extends Your Existing HDMI Cable Run by 15 ft.

The dependable P569-A15-MF-8K6 (M/F) connects to your existing HDMI cable to extend the run by 15 feet (4.6 meters). This allows you more flexibility in placing, for instance, a cable box or media server connected to an HDMI-enabled television, monitor or projector.

Transmits Crystal-Clear 4K Video with HDR and 4:4:4 Color

This extension cable supports Ultra HD 8K resolutions up to 7680 x 4320 at 60 Hz, as well as Dolby Digital audio, DTS and TrueHD. HDR (High Dynamic Range) provides a wide range of vibrant colors with richer contrast, brighter whites and deeper blacks that pop on your display. HDCP 2.3 encryption allows you to stream 8K content with no loss in resolution. This cable also supports uncompressed 4:4:4 chroma subsampling for top-level PC gaming or using your HDTV as a PC monitor.

Ready to Use Right from the Package, So You Can Plug and Play Immediately

The extension cable requires no software or external power. A built-in USB-A pigtail cable can be used if additional power is necessary. The active repeater allows you to connect two devices farther apart without the cost of an external signal booster. An audio return channel simplifies setups between displays and receivers.
