10kW 3-Phase Switched PDU, LX Interface, 208/240V Outlets (24 C13/6 C19), LCD, NEMA L15-30P, 3m/10 ft. Cord, 0U 1.8m/70 in. Height, TAA

MODEL NUMBER: PDU3EVSR10L1530

10kW L15-30 PDU with multi-function touchscreen LCD distributes, monitors and manages AC power. Built-in Java-free network interface helps you remotely monitor load levels to prevent overloads that cause downtime.

Description

The PDU3EVSR10L1530 10kW 3-Phase Switched Power Distribution Unit provides advanced network control and remote power monitoring with the ability to turn on, turn off, reboot or lock out power to each outlet. By reducing the frequency of on-site visits, these advanced remote capabilities can save you money and reduce downtime.

The 0U PDU features 30 switched outlets (24 C13 and 6 C19) with included plug-lock insert sleeves to prevent cables from becoming accidentally disconnected. A 10-foot cord with NEMA L15-30P plug connects the PDU to a compatible AC power source, generator or protected UPS.

The built-in Java-free HTML5-based LX Platform network interface enables full remote access for PDU status monitoring and email notifications via secure web browser, SNMP, telnet or SSH. It supports 10/100 Mbps auto-sensing for optimum communication with an Ethernet network. Optional EnviroSense2 modules (sold separately) provide a variety of environmental monitoring capabilities. Protocols supported include IPv4, IPv6, HTTP, HTTPS, SMTP, SNMPv1, SNMPv2, SNMPv3, telnet, SSH, FTP, DHCP and NTP.

A color touchscreen LCD lets you toggle between menus to monitor input current level per phase, output current per load bank and per outlet with ±1% billing-grade accuracy, environmental sensor data and network information. It also generates a unique QR code to allow access to the switchable PDU through a

Highlights

- 10kW 208/240V 3-phase switched 1.8-meter 0U PDU
- 30 individually controllable outlets—24 C13, 6 C19
- Built-in LX Platform interface for remote access 24/7
- NEMA L15-30P PDU input with 10 ft. AC power cord
- Touchscreen LCD with mobile access option via QR code
- To enable the Auto Probe feature, this product requires LX firmware update 15.5.2 or later to be installed

Package Includes

- PDU3EVSR10L1530 10kW 3-Phase Switched PDU
- Built-in LX Platform interface
- Configuration cable
- (30) Plug-lock insert sleeves
- Rack-mounting hardware
- PDUMVROTRATEBRKT mounting bracket accessory
- Owner's manual
Distributes, Monitors and Manages Network-Grade AC Power

10kW 208/240V switched PDU with 3-phase input
Recommended for network applications requiring individual outlet control, load shedding and remote monitoring of critical network components
NEMA L15-30P plug with 10 ft. cord connects to compatible AC power source
Firmware upgrades support future product enhancements

30 Switched Outlets Distribute AC Power
24 C13 and 6 C19 outlets split into 3 separately breakered load banks
Individual outlets can be remotely controlled to power up, power down, reboot or lock out devices
Plug-lock insert sleeves prevent cables from becoming accidentally disconnected

Color Touchscreen LCD
Reports network data, including IP address, input current level per phase, and output current per load bank and per outlet with ±1% billing-grade accuracy
Generates unique QR code for read-only access to PowerAlert® Device Manager via mobile device
Full access available by logging into PowerAlert Device Manager via browser as user with read/write credentials

Built-In LX Platform Interface
Allows full remote access for power monitoring with email notifications via secure web browser, SNMP, telnet or SSH
Supports 10/100 Mbps auto-sensing for communication with an Ethernet network
Optional EnviroSense2 modules (sold separately) provide a variety of environmental monitoring capabilities
No Java required

Broad Communications Compatibility
Supports IPv4, IPv6, HTTP, HTTPS, SMTP, SNMPv1, SNMPv2, SNMPv3, telnet, SSH, FTP, DHCP and NTP
Supports automatic and manual assignment of IP address

Easy 0U Installation in EIA-Standard 19 in. Racks
Mounts vertically using included toolless buttons or rack-mounting brackets
Included PDUMVROTATEBRKT allows mounting with rear-facing outlets

TAA-Compliant
Compliant with the Federal Trade Agreements Act (TAA) for GSA Schedule purchases

### Customized Load Management

**Receptacles**

Each outlet is individually controllable

### USER INTERFACE, ALERTS & CONTROLS

**Reported Load Segments**

Reports input current per phase (L1, L2, L3), plus output current for each output load bank (20A balanced max per banks B1-B3) and individual output receptacle (1-30): Outlets are color-coded and labeled for phase and load bank identification; L1-L2 feeds light-gray outlets (B1); L2-L3 feeds black outlets (B2); L3-L1 feeds dark-gray outlets (B3)

**Front Panel LCD Display**

Touchscreen LCD reports NETWORK DATA (IP address, Subnet Mask, Gateway, MAC Address, Device Name, Model, Serial Number), INPUT PHASE DATA (Amperage, Wattage, Voltage per phase, plus Unbalance percentage), LOAD BANK DATA (Amperage, Wattage, Voltage per load bank, plus total PDU output in watts), OUTLET DATA (Amperage, Wattage per outlet), CONFIGURATION DATA (Listing of current configuration settings), ENVIRONMENTAL DATA (Reports data and status of E2 sensor modules; Sensor options are available for temperature and humidity, plus input and output dry contacts), MOBILE ACCESS (Generates a unique QR code to view reported PDU details on a mobile device)

**Front Panel LEDs**

One LED for each output receptacle offers power availability information: GREEN (Power ON, load bank capacity <80%), YELLOW (Power ON, load bank capacity >80%), RED (Power OFF/undervoltage), RED FLASHING (Power OFF/breaker trip), LED OFF (Power OFF), Network Activity (Green): Flashes for network activity, Link/Network Speed (Yellow): On steady for any speed.

**Switches**

LX Platform Interface: Recessed reset switch for interface reboot and factory reset

**Current Measurement Accuracy (Amps)**

+/-1%

**Voltage Measurement Accuracy (Volts)**

+/-1%

**Power Measurement Accuracy (Watts)**

+/-1%

### PHYSICAL

**Form Factors Supported**

Vertical rackmount installation supported with included mounting brackets; supports toolless mounting in button-mount compatible racks

**Material of Construction**

Metal
