SCSI/Fibre Channel - SCSI Adapter

MODEL NUMBER: **S202-000**

Description

Tripp Lite's internal adapters convert SCSI devices to work with SCSI installations. Perfect for upgrading mixed installations. It has HD68 male and 50 header IDC connectors. With these adapters you can save the time and expense of buying new cables by simply adapting your existing ones to interface with the connector types found on many of the newer model SCSI installations. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- The adapter will convert a 68pin device to a 50pin cable or connector
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life

Highlights

- Adapters convert older SCSI devices to work with newer SCSI installations
- Perfect for upgrading mixed installations

System Requirements

- Any internal SCSI device requiring conversion from HD68 interface to 50 position header

Package Includes

- Internal SCSI Adapter HD68M/50PinM
