Internal SCSI LVD Adapter (Ultra Micro 80F/HD68F)

MODEL NUMBER: **S224-000**

Highlights

- Adapters convert older SCSI devices to work with newer SCSI installations
- Perfect for upgrading mixed installations
- Ultra320 Rated

System Requirements

- LVD drive needing to be attached to a wide HD68 SCSI ribbon

Package Includes

- Internal SCSI Adapter HD68F to Ultra Micro 80F

Description

Used to connect LVD Ultra Micro 80 drives to wide HD68 internal cabling. Tripp Lite's internal adapters convert SCSI devices with mixed installations. These adapters can save you the time and expense of buying new cables by simply adapting your existing ones to interface with the connector types found on many of the newer model SCSI installations. Tripp Lite warrants this product to be free from defects in materials and workmanship for life.

Features

- The adapter will adapt a 80pin LVD device to a 68pin cable or connector
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
