SCSI/Fibre Channel - 3-ft. External SCSI Cable C50M to DB25M Double Shielded

MODEL NUMBER: **S314-003**

Description

Tripp Lite presents the 3-ft. SCSI I cable. The DB25 male to C50 male cable is designed for use with legacy Apple/Macintosh SCSI devices. Tripp Lite warrants this product to be free from defects in materials and workmanship for life. All Tripp Lite SCSI cabling is double-shielded (braid and foil). All Tripp Lite SCSI products regardless of the SCSI generation meet the latest SCSI III specifications of ANSI (American National Standards Institute).

Features

- Premium double-shielded cable
- 19 twisted-pair conductors
- Used to connect SCSI devices with C50F connections to a controller with a DB25F connection
- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life

Highlights

- Premium double-shielded cable
- 19 twisted-pair conductors
