

SmartPro 120V 500VA 300W Line-Interactive UPS, 1U, WEBCARDLX, USB, DB9, 7 Outlets

MODEL NUMBER: SMART500RT1UN

Rack-mount UPS offers complete power protection for small network applications, including telecom, security and digital signage.

Features

500VA/300W/120V Battery Backup for PC Networks, Security Systems or Digital SignageThe SmartPro® line-interactive SMART500RT1UN UPS system with AVR provides reliable battery backup and AC power protection against blackouts, brownouts, overvoltages, surges and line noise that can damage valuable electronics or destroy data. The seven-outlet 120V battery backup is ideal protection for rack-mount equipment in your server room or network closet.

Allows Time to Back Up Critical Files During a Blackout Backup support allows you to work through short power failures and gives you enough time to safely save files and shut down your system in case of a prolonged blackout. Backup time varies according to load, but the line-interactive UPS system should keep a half load (150W) powered as long as 14 minutes and a full load (300W) up to three minutes.

Included WEBCARDLX Network Interface Offers 24/7 AccessThe Java-free HTML5-based WEBCARDLX interface enables full remote access for site power and UPS status monitoring, configuration, control and email notifications via secure web browser, SNMP, telnet or SSH. It supports 10/100 Mbps auto-sensing for optimal communication with an Ethernet network. Optional EnviroSense2 modules (sold separately) provide a variety of environmental monitoring capabilities, including temperature and humidity conditions. Protocols supported include IPv4, IPv6, HTTP, HTTPS, SMTP, SNMPv1, SNMPv2, SNMPv3, telnet, SSH, FTP, DHCP and NTP.

7 NEMA Outlets Protect Your Connected ComponentsSeven 5-15R outlets provide battery backup, 567 joules of surge protection and voltage regulation for your crucial components. Six are UPS-supported, and one is surge-only to connect peripherals not requiring battery backup. One UPS-supported outlet is switchable, allowing you to power its connected device on and off remotely to reset or reboot it or to shed a less significant load to extend battery runtime for more critical equipment.

Automatic Voltage Regulation (AVR) Corrects Low- and High-Voltage ConditionsAVR protects your equipment from incremental hardware damage, data loss and performance problems caused by brownouts and overvoltages. The SMART500RT1UN maintains regulated 120V nominal output during brownouts as low as 90V, while keeping the battery fully charged and ready to take over in case of power failure. The internal batteries are field-replaceable and hot-swappable.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform BetterThis UPS system filters out disruptive electromagnetic and radio frequency interference that can inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

Designed for High Efficiency to Help You Save Money and Protect the EnvironmentA 96% efficiency rating reduces BTU emissions, energy consumption and, ultimately, your energy costs.

LED Indicators and Audible Alarms Keep You InformedFive front-panel LEDs keep you apprised of line power, battery power, overload, voltage regulation and battery low/replace status at a glance. A multi-function alarm sounds to warn you of power failure, overload and low-battery conditions.

Highlights

- Protects equipment against blackouts, brownouts, overvoltages, surges and line noise
- Keeps AC power running during blackouts to allow time for file saves and safe shutdown
- Maintains continuous 120V nominal output during brownouts and overvoltages
- Included WEBCARDLX network interface allows you 24/7 remote access from anywhere

Applications

- Deliver battery-derived AC output to connected equipment in a network closet or small-business network
- Protect point-of-sale and VoIP networks against power surges and spikes
- Operate essential equipment during short-term power outages using battery backup power
- Shut down desktop PCs and other equipment without data loss during long-term power outages

Package Includes

- SMART500RT1UN 120V 500VA 300W Line-Interactive UPS with 7 Outlets
- WEBCARDLX network management card
- Micro USB to USB-A
- USB cable

Advanced Communications Ports Allow for Automatic Saves and Shutdowns RS-232 and HID-compliant USB ports connect to a computer running Tripp Lite's free downloadable PowerAlert® software to enable safe unattended file saves and system shutdown in case of a prolonged power failure. The EPO port supports emergency shutdown in large facilities. Cables are included.

Versatile Installation Options Hardware is included for mounting the UPS in 1U of space in an EIA-standard 19-inch 2-port or 4-post rack or in an upright tower position. The 10-foot power cord with NEMA 5-15P plug connects to any compatible AC outlet.

- DB9 cable
- EPO cable
- Rack-mounting hardware
- Owner's manual

Specifications

OVERVIEW	
UPC Code	037332224170
UPS Type	Line-Interactive
INPUT	
Rated input current (Maximum Load)	12A (Maximum input with 300W UPS and 1140W surge-only loads)
Nominal Input Voltage(s) Supported	110V AC; 115V AC; 120V AC
UPS Input Connection Type	5-15P
Input Circuit Breakers	15A
UPS Input Cord Length (ft.)	10
UPS Input Cord Length (m)	3.1
Recommended Electrical Service	15A 120V
Input Phase	Single-Phase
OUTPUT	
Output Volt Amp Capacity (VA)	500
Output Watt Capacity (Watts)	300
Nominal Voltage Details	120v nominal output in battery mode
Frequency Compatibility	60 Hz
Output Voltage Regulation (Line Mode)	-15%, +13%
Output Voltage Regulation (Battery Mode)	+/- 5%
UPS Output Receptacles (Surge Suppression Only)	6 UPS outlets, 1 surge-only outlet
Load Management Receptacles	One switchable single-outlet 5-15R load bank
Output AC Waveform (AC Mode)	Sine wave
Output AC Waveform (Battery Mode)	PWM sine wave

Nominal Output Voltage(s) Supported	110V; 115V; 120V
Output Receptacles	(6) 5-15R
Individually Controllable Load Banks	Yes
BATTERY	
Full Load Runtime (min.)	3.0 min. (300w)
Half Load Runtime (min.)	14 min. (150w)
DC System Voltage (VDC)	12
Battery Recharge Rate (Included Batteries)	14.4 hours from 10% to 90% (typical, full load discharge)
Internal UPS Replacement Battery Cartridge	 RBC62-1U
Battery Access	Battery access door
Battery Replacement Description	Hot-swappable, user replaceable batteries
Expandable Runtime	No
VOLTAGE REGULATION	
Voltage Regulation Description	Automatic voltage regulation (AVR) maintains line power operation with input voltage as low as 90
Undervoltage Correction	Input voltages between 90 and 105 are boosted by 14%
USER INTERFACE, ALERTS & CONTROLS	
Switches	2 Switches control off/on power status and alarm-cancel/self-test operation
Alarm Cancel Operation	Power-fail alarm can be silenced using alarm-cancel switch; once silenced, alarm will re-sound to indicate low-battery status
Audible Alarm	Audible alarm indicates power-failure, overload and low-battery conditions
LED Indicators	5 LEDs indicate line power, battery power, overload, voltage regulation and battery low/replace status
SURGE / NOISE SUPPRESSION	
EMI / RFI AC Noise Suppression	Yes
AC Suppression Joule Rating	567
AC Suppression Response Time	Instantaneous
PHYSICAL	
Included Mounting Accessory Description	Included mounting flanges support rackmount installation in 2 or 4 post racks
Installation Form Factors Supported with Included Accessories	2 post 19 inch rackmount; 2 post front mount; 4 post 19 inch rackmount; Tower
Minimum Required Rack Depth (cm)	36.32
Minimum Required Rack Depth (inches)	14.3

Primary Form Factor	Rackmount
Primary UPS Depth (mm)	286
Primary UPS Height (mm)	44
Primary UPS Width (mm)	440
Rack Height	1U
Shipping Dimensions (hwd / in.)	15.40 x 4.80 x 22.10
Shipping Weight (kg)	9.48
UPS Housing Material	Steel
UPS Power Module Dimensions (hwd, in.)	1.73 x 17.32 x 11.26
UPS Power Module Weight (kg)	7.98
UPS Power Module Weight (lbs.)	17.6
ENVIRONMENTAL	
Operating Temperature Range	+32 to +104 degrees Fahrenheit / 0 to +40 degrees Celsius
Storage Temperature Range	+5 to +122 degrees Fahrenheit / -15 to +50 degrees Celsius
Relative Humidity	0 to 95%, non-condensing
AC Mode BTU / Hr. (Full Load)	44
Battery Mode BTU / Hr. (Full Load)	360
AC Mode Efficiency Rating (100% Load)	96%
COMMUNICATIONS	
Network Management Cards	 WEBCARDLX
Network Monitoring Port Description	Pre-installed WEBCARDLX provides remote monitoring and control via Java-free HTML5 web interface, telnet, SSH and SNMP management systems
PowerAlert Software	For local monitoring via the UPS's built-in communication ports, download PowerAlert Local software at http://www.tripplite.com/poweralert
Communications Cable	USB and DB9 cabling included
WatchDog Compatibility	Supports Watchdog application, OS and hard-reboot restart options for remote applications
Network UPS Tools Compatibility	NUT compatible. See full list of compatible Tripp Lite products at http://www.networkupstools.org/stable-hcl.html?manufacturer=Tripp Lite
Communications Interface	DB9 Serial; EPO (emergency power off); Pre-installed network card; Slot for SNMP/Web interface; USB (HID enabled)
LINE / BATTERY TRANSFER	
Transfer Time	4 milliseconds (AC to battery); 7 milliseconds (Battery to AC)
Low Voltage Transfer to Battery Power (Setpoint)	90

High Voltage Transfer to Battery Power (Setpoint)	140
SPECIAL FEATURES	
Grounding Lug	Back panel grounding lug
Cold Start (Startup in Battery Mode During a Power Failure)	Cold-start operation supported
High Availability UPS Features	Auto Probe Monitoring and Reboot (included); Hot swappable batteries
STANDARDS & COMPLIANCE	
UPS Certifications	Meets FCC Part 15 Category B (EMI); Tested to CSA (Canada); Tested to NOM (Mexico); Tested to UL1778 (USA)
Certification Details	UL1778: 2014 5TH ED.; CSA-C22.2 NO. 107.3-14 3RD ED.
WARRANTY	
Product Warranty Period (Worldwide)	2-year warranty, 3 year with registration. Note: Registration is required for 3-year warranty.
Connected Equipment Insurance (U.S., Canada & Puerto Rico)	\$250,000 Ultimate Lifetime Insurance
