

## 4-Piece Network Installer Tool Kit with Carrying Case

MODEL NUMBER: **T016-004-K**

All-in-one kit includes tools and tester necessary for creating and testing RJ11, RJ12 and RJ45 cables. Essential for cable installers or anyone working in telecom or LAN environments.

### Description

The all-in-one T016-004-K Network Installer Tool Kit contains essential tools for cable installers or anyone working in telecom or LAN environments: cable tester, crimping tool, LSA punchdown tool and stripper tool. The cable tester allows you to test wiring continuity for Cat5, Cat6, Cat6a and telephone cable assemblies at the flip of a switch. A combination of main tester unit and removable remote tester unit, the cable tester identifies a connection, no connection, short circuit or open circuit. The tester features modes for fast and slow flashing of LEDs during automatic testing. When not in use, the four-piece T016-004-K can be stored in its handy carrying case.

### Features

#### Essential Tools for Cable Installers or Telecom/LAN Personnel

- Tests Cat5, Cat6, Cat6a and telephone cable assemblies
- Cable tester combines main tester unit and removable remote tester unit
- Identifies connection, no connection, short circuit or open circuit
