Protect It! 2-Outlet Travel-Size Surge Protector - 5-15R Outlets, USB-C and USB-A Ports, 5-15P Input, Black

MODEL NUMBER: **TRAVELER3USBC**

Protects your laptop and other electronics against dangerous power surges, spikes and line noise in a hotel or conference room.

Features

2-Outlet Surge Protector with USB Charging Safeguards Your Sensitive Electronics

Ideal for use in a hotel, airport, conference room or anywhere else you use your laptop, this Protect It!® surge protector features a surge protection rating of 306 joules to defend your valuable electronic components against power surges and spikes. The 18-inch (45.7-centimeter) AC power cord with right-angle NEMA 5-15P plug connects to a wall outlet and conveniently wraps around the unit for easy storage when not in use.

NEMA 5-15R Outlets Accept a Wide Range of Electronic Devices

Plug your laptop, printer, external hard drives and other portable electronics into two NEMA 5-15R outlets to protect them against dangerous surges, spikes and line noise. One outlet is in front of the surge protector and the other is on the side to help accommodate a bulky transformer without blocking the other outlet.

Premium Protection from EMI/RFI Line Noise Helps Your Equipment Perform Better

This surge protector filters out disruptive EMI (electromagnetic interference) and RFI (radio frequency interference) line noise that can disturb your electronics and inflict hardware damage or data loss. This EMI/RFI filtering also helps your connected components perform better and last longer.

USB Charger Keeps Mobile Devices Ready for Use

One USB-C port and one USB-A port are available for charging your smartphone, tablet. MP3 player or other USB mobile devices. The USB-C port has 3A and the USB-A port 2.4A for charging multiple devices at the same time. A green LED confirms at a glance that your equipment is protected.
