

USB-C Dock with Clip - 4K HDMI, USB-A Hub Port, Memory Card, 60W PD Charging, Gray

MODEL NUMBER: U442-DOCK15-S

USB-C dock clips to your iPad Pro, tablet or smartphone to add 4K HDMI, USB-A, PD Charging and memory card slots to its USB-C port.

Features

Clips to Your Device's USB-C or Thunderbolt 3 Port to Create a Multiport Workstation This USB-C docking station with PD Charging expands the potential of your iPad Pro, tablet or smartphone's USB-C or Thunderbolt 3 port. It's ideal for transmitting 4K video and digital audio to a large display, adding a thumb drive or other USB peripheral, and powering and charging a PD Charging-compliant mobile device—all at the same time. The built-in USB-C plug clips securely to your USB-C or Thunderbolt 3 device to prevent it from becoming accidentally disconnected.

Supports USB-C DisplayPort Alternate Mode for Converting Audio/Video Signals By connecting the built-in USB-C plug to a source device that supports USB DisplayPort Alt Mode, you can output 4K video and digital audio to an HDMI monitor, television or projector without installing special software drivers.

Transmits Crystal-Clear 4K Video and Digital Audio The U442-DOCK15-S supports Ultra HD video resolutions up to 3840 x 2160 (4K x 2K) at 30 Hz with multi-channel sound. Connect the HDMI port to your display using an HDMI cable (sold separately).

PD Charging Port Charges Connected Device via AC Wall Charger The USB-C Power Delivery port supports power output up to 20V 3A (60W), which is sufficient for charging and powering the connected source device, such as an iPad Pro or Android smartphone. Just connect the device's AC wall charger to the USB-C PD port.

Connects a Keyboard, Thumb Drive and Other Peripherals The USB-A hub port accepts a USB peripheral, such as a flash drive, mouse, keyboard or printer. It supports USB 2.0 transfer rates up to 480 Mbps and is backward compatible with earlier USB generations. A 3.5 mm audio jack allows connection of a microphone, stereo earbuds or speakers to your USB-C device with a user-supplied cable.

Allows External Memory Access The memory card slots support Micro SD and SD/MMC cards for transferring data to and from your connected computer, laptop or tablet. Both slots may be used at the same time.

Ready to Use Right from the Package, So You Can Plug and Play Immediately The lightweight aluminum USB-C dock is specifically designed for use with notebooks, tablets and other devices equipped with a USB-C or Thunderbolt 3 port. It requires no drivers or external power source. It's about the size of a smartphone and weighs a mere 0.2 pounds, making it easy to pack into a pocket, backpack or laptop bag for multipoint convenience wherever you go.
