- CD with driver software and user guide
- Printed Quick Start Guide
- Carrying pouch

Description

The Multimedia Remote for PCs & Laptops is a RF (radio frequency) remote that allows you to control multimedia applications on your Mac or PC through walls and furniture. The remote controls your multimedia applications by sending them the same keystrokes that you do when you control the application from a keyboard.

Features

- Sleek 17 button radio frequency remote transmits signals up to 40-ft. (12.19 m)
- Includes Windows Media Player, WinAMP, QuickTime, PowerPoint and other popular multi-media applications. Simple control panel allows you to program the remote for use with additional applications
- Perfect for earlier generations Windows OS, Vista, XP, Win7 (32 bit only)
- To locate a Win7 32 bit driver: insert receiver into USB port on your computer and a dialog box will appear asking if you want an updated Win7 32 bit driver
- Click 'yes' and follow the steps to link to the driver
- Execute the driver and reboot your computer
