

USB Twin Serial Adapter for Macs Keyspan by Tripp Lite

MODEL NUMBER: **USA-28XG**

Description

There is good reason why we sell more Mac USB serial adapters than any other company. We've been making PCI serial cards and USB serial adapters for Mac OS for more than 10 years! Our USB Twin Serial Adapter is recommended by dozens of serial device manufacturers and has been certified by Apple for use with Final Cut Pro.

Features

- Provides two RS-422 ports for connection to serial devices
- Supports data rates up to 1 Mbps
- Draws power from the USB connection -- a power adapter is not required
- Has been qualified by Apple, Avid and others for connection to video decks
- Supports use of multiple adapters on one Mac
