

SmartRack® Aisle Containment System

Configuration for 8 to 10 Extra-Wide Racks, Wall-Facing (End)

Benefits

- Hot- and/or cold-aisle containment improves separation of hot and cold air to increase cooling efficiency and reduce costs
- Kits simplify ordering, include all required hardware and allow assembly, configuration and modification by non-specialists
- Modular and adjustable components work with standard or wide 42U, 45U and 48U rack cabinets, including aisle retrofits
- Locking doors control access, clear panels transmit room lighting and self-supporting design prevents excessive rack loading
